GRAFFITI REMOVER SS

Provides a safe mechanism for the removal of a wide range of graffiti.

- ✓ GRAFFITI REMOVER SS is an Australian product which is safe, quick & easy to use.
- ✓ It is manufactured with the environment in mind, and exceeds the requirements of National Medical Research Councils Standards for biodegradability.
- ✓ It is Water Soluble and Non Chlorinated, Non Toxic, but is completely Earth Friendly.

Because of its Safe inherent properties, it is ideal for use on delicate surfaces for removal of paints, including Plastics, Timbers, all Metals, Glass, Rubbers, Painted Surfaces, Perspex, Signs, Marble, Fibreglass and Automotive Finishes. Also for use on Heritage Building cleaning for Graffiti removal and cleaning of stubborn airborne grime.

"SAFE & EASY TO USE"

The application method depends on the type of surface to be cleaned. Also type of surface, size and nature of the Graffiti. How long has the Graffiti been present? Generally the removal should be undertaken as soon as possible, preferably within 24 hours. After this time the paint will be harder to remove.

First action is to pre-clean oily or greasy surfaces and allow to dry.

Apply GRAFFITI REMOVER SS by spray and leave for two minutes. Re-apply and wait a further two minutes, then finally re-apply and agitate with brush or cloth on smooth surfaces or stiff brush on masonry, working quickly. Repeat if needed until surface is free from paint marks etc.

It is advised to immediately wash area with stream of water and apply a Neutralizer or strong but harmless detergent and again agitate, then wash away with water. magiKLEEN "After Clean-up" is highly recommended as it was developed for this application. (Product Code - ACUP250/500/4ltr)

Is also safe on vinyl's, carpets etc.

SAFETY

Low order of toxicity.

Can be used without protective masks.

"IT REALLY WORKS"™

ENVIRONMENTAL

Contains no chlorinated hydrocarbons, no petroleum hydrocarbons, no caustic alkalies and no acids.

Water based solvents are biodegradable and pose no environmental hazard.

250ml - Product Code GRSS250 500ml - Product Code GRSS500

4 Litres - Product Code GRSS4 20 Litres - Product Code GRSS20

*magiKLEEN recommends that all surfaces to be cleaned should be tested first in an inconspicuous area before full use is undertaken, to see compatibility.
