Spray bottle with every INDUSTRIAL KLEEN product purchase

Diluted 1:1 – For heavy duty applications such as ink removal, degreasing of oil from machinery, range hood filter cleaning, bilges in boats etc.
Diluted 1:6 – For general hard surface cleaning, including stainless steel, bench tops, large appliances, cleaning mould and mildew etc.
Diluted 1:10 or more – For use on walls and floors as general cleaner, removal of scum around shower areas, cleans concrete and driveways.

NEW UNIQUE AUSTRALIAN CHEMICAL PRODUCT

***Safe and easy to use, contains a special rust inhibitor.**
***Non-Flammable, Non Toxic, leaves no residual.**
***Completely Biodegradable.**

USES

- INDUSTRY:** safely cleans grease from machinery, equipment, walls, small parts concrete floors, sludge etc.
- MACHINE, AUTOMOTIVE AND ENGINEERS:** is a superior cleaner for motors, motor parts, equipment, tanks, cement floors and shower stalls.
- AUTOMOBILE ACCOUNTS:** is unequalled for upholstery and fittings. Allows speedy cleaning of engines, concrete floors etc.
- AVIATION INDUSTRY:** is an all-purpose degreaser and cleaner for all aeroplane parts – removal of all oil and fuel residues. Thorough cleaning of interior and exterior.
- RESTAURANTS AND HOTELS:** cleans stoves – food preparation areas – ventilation hoods – floors – walls.
- FOOD PROCESSING INDUSTRIES:** For bakeries, abattoirs, meat packers, poultry processors, breweries, drink manufacturers and canneries. Dissolves carbon, wax, and grease from processing and packaging machines. Dissolves fat and grease from meat processing equipment. Cleans blood and offal from killing areas.
- MUNICIPALITIES:** is a complete all-purpose degreaser and cleaner for all departments. Cleans motors, pumps, housings, safety cones, floors, equipment in sewage and water treatment plants. Ideal for parking meter heads.
- PRINTERS:** Versatile – removes grease from all metal surfaces on printing machines. Excellent for floors, walls, plates and rollers.
- MARINE INDUSTRY:** quickly removes mildew and fungi from hulls. Excellent as a bilge cleaner. Quickly emulsifies gas, oil and bilge water to make cleaning relatively simple. Reduces fire hazard – leaves no oily film.
- SCHOOLS:** is effective for cleaning concrete walkways and play areas. Removes grease and scum from air-conditioning and heating systems. Multi-purpose cleaner and degreaser for canteen and kitchen areas.
- PREPARATION FOR PAINTING:** cleans and degreases thoroughly before painting. Leaves no residue.

DIRECTIONS FOR USE:

May be diluted with up to fifteen parts water. The common concentrate for efficient heavy duty cleaning is one part magiKLEEN to one part water. For normal cleaning a ratio of 1:6 is all that is required and mild cleaning 1:6 and above up to 1:15. The solution may then be applied by brush, spray or swab, and allowed to remain a short time. The surface may then be rinsed or wiped with a clean, damp cloth. For heavier soils a stronger and longer contact time should be employed.

*magiKLEEN recommends that all surfaces to be cleaned should be tested first in an inconspicuous area before full use is undertaken, to see compatibility.
